PROFESSIONAL SUMMARY

BICT (Hons) undergraduate at the University of Vavuniya with a strong foundation in front end web development (HTML5, CSS3, JavaScript) and UI/UX design (Figma, wireframing, prototyping, user flows). Experienced in building responsive, user-focused interfaces through academic and personal projects, combining design thinking with hands-on coding to create clean, accessible web experiences. Seeking a Front End Developer internship to apply and grow these skills in a real-world engineering environment.

EDUCATION

BICT (Hons) in Information and Communication Technology

2023 - present

Faculty of Technological Studies, University of Vavuniya, Sri Lanka

- Academic Standing: 3rd Year, 2nd Semester

TECHNICAL SKILLS

Key Competencies: Front-End Development, UI/UX Design, Responsive Web Design, Component-Based Development,

Languages: HTML5, CSS3, JavaScript

Backend & Databases: MySQL, Node.js

Web & Front-End: React.js, Bootstrap, Flexbox, CSS Grid, Responsive Design

Version Control / OS / Tools: Git, GitHub, VS Code, Figma,

PROJECTS

Employee Mood Tracker

HTML, CSS, JavaScript | 2026

- Applied responsive layout and clean UI patterns to keep the interface usable across devices
- Designed and built a front-end web app for logging and visualizing employee mood trends, focused on a simple, accessible daily input flow

Staff Management System

PHP, MySQL, HTML, CSS, JavaScript — Group Project (Front-End Developer) | 2026

- Built a shared layout and authentication-aware structure across the app, and managed version control by setting up Git and publishing the project to GitHub
- Developed front-end pages (staff list, add, edit, attendance) for a PHP/MySQL staff management application, integrating with back-end data and fixing display/edit functionality issues
